1. We support progressive, ample, sustainable, and equitable revenue—such as capital gains tax, progressive income tax, employer head tax and closing corporate tax loopholes—for government to provide programs and services in support of our values.

### **II. Corporate Reform**

1. We call for the 28th Amendment of the U.S. Constitution to end the treatment of corporations as if they were human beings and support the use of antitrust laws to break up corporate monopolies.
2. We support revocation of the charters of corporations that violate the law, with a public right to call for such action, and prohibition of public contracts with habitual corporate law-breakers.
